COMPUTER SKILLS

Virtualisation
- VMWare vSphere, Hyper-V, VirtualBox.

Tools & Protocols
- Tools : Cisco Packet Tracer, GNS3, Wireshark.
- Protocols : TCP/IP, DNS, DHCP, SSH, SSL/TLS, IPSec

EDUCATION

Master's Degree : Networks and Telecommunications *From Sept. 2018 to Nov. 2020*
M'Hamed Bougara University *Boumerdes, Algeria*
- TCP/IP network models
- Quality of Service (QoS)
- Secure network design (zones, DMZ, filtering)
- Cryptography fundamentals
- Security protocols (SSL/TLS, IPSec, SSH)

Licence : Telecommuniications *From Sept. 2015 to Jun. 2018*
M'Hamed Bougara University *Boumerdes, Algeria*
- Fundamentals of wired and wireless communication systems
- Principles of transmission systems
- Computer network concepts
- OSI & TCP/IP layered models
- LAN switching fundamentals
- Basic routing theory

WORK EXPERIENCE

Network administrator *From Dec. 2021 to Aug. 2025*
Promotion and Management Office *Boumerdes, BM, Algeria*
- Installation and configuration of SSL certificates to secure access and ensure data confidentiality.
- Configuration and management of Cisco equipment (switches, routers), TCP/IP, DNS, DHCP, VLAN, SSH, SSL/TLS, IPSec.
- Identity and access management via Active Directory, LDAP.
- Management of Sophos XG firewall (security policies, WAF, VPN).
- SOPHOS XG

FORMATIONS

Sophos XG *From Jan. 2025 to Feb. 2025*
CETIC *Algeria*
- Installation and deployment of Sophos XG Firewall
- Interface, zone, and routing configuration
- Security policy management (Firewall Rules)
- NAT configuration (DNAT / SNAT)
- VPN deployment (IPsec site-to-site, SSL VPN)
- User management and authentication
- WAF (Web Application Firewall) configuration and management
- High Availability (HA) implementation

FORMATIONS

DevOps -Jenkins (CI/CD) *July 2024*

CETIC *Algeria*

- Installation and configuration of Jenkins (standalone / Docker)
- Understanding of CI/CD concepts (Continuous Integration & Continuous Delivery)
- Creation and management of Jenkins pipelines (scripted and declarative)
- Integration with versioning tools (Git / GitHub / GitLab)

NSE2 - Network Security Associate *From Oct. 2026 to Oct. 2028*

Fortinet *Fortinet*

- Firewall policy operation
- User authentication in NGFW
- Web access control with web filtering
- Intrusion Prevention System (IPS) and application control
- Secure interconnection of multiple sites

NSE1 - Network Security Associate *From July 2026 to July 2028*

Fortinet *fortinet*

- Malware and malicious software
- Cryptography and Public Key Infrastructure (PKI)
- Network security
- Authentication and Access Control
